

# Outdoor PoE Solutions

Power Over Ethernet & Surge Protection

## LinkPower™ LPS1000 All Weather Adjustable Voltage PoE Switch<sup>3</sup>

### LPS1000 System Configuration

## Injector & Surge Protection

### PES100

1-Port Ethernet Surge Suppressor

### PIP100<sup>4</sup>

1-Port PoE DC Injector

### PIS200<sup>4</sup>

2-Port PoE DC Injector with Surge Suppressor

### LSS0001

RF Lightning Arrestor (0 ~ 6GHz)

### PIP100 & PES100 System Configuration FOR OUTDOOR VIDEO CAMERA APPLICATIONS

### PIP100 & PES100 System Configuration FOR WIRELESS APPLICATIONS

### PIS200 System Configuration FOR SIMULTANEOUS SURGE SUPPRESSION AND POWER INJECTION TO TWO DEVICES

3. Adjustable Voltage 12V DC, 24V DC, 48V DC, IEEE 802.3af 4. Supports 12V DC ~ 48V DC Power

# About Inscape Data

Corporate Overview

Inscape Data Corporation is the leading outdoor network appliance company. Since it was founded in September, 2003, Inscape Data has been pioneering the design and development of the outdoor network appliance products, i.e., Outdoor PoE switch, wired/wireless, and IP Video systems. Inscape Data offers total turnkey solutions for outdoor PoE, wired/wireless (i.e., long-range 2.4GHz, 4.9GHz, 5GHz), and IP-based video surveillance applications, including IP67/68 (Ingress Protection)-compliant all-weather IEEE802.11 a/b/g wireless systems, Outdoor PoE Switches, and IP video security products based on MPEG-4 / JPEG video compression standards. Inscape Data's patent-protected technology drives our industry-leading outdoor PoE switch, which simplifies outdoor wiring, integration, and remote management of system deployment. Our innovative 2-port and 5-port PoE switch systems greatly reduce the challenges and overhead involved in the daily management of outdoor wired/wireless and IP video systems.

Inscape Data's outdoor patent-protected PoE switch and wired/wireless technology effectively enables a wide range of outdoor communication applications, most notably video surveillance. Using Inscape Data's outdoor 2-port/5-port PoE switch, wired/wireless, and video security total turnkey solutions, system integrators, governments, and schools are able to economically and flexibly deploy their data, voice, and video communications from backhaul to last-mile applications.

Founded on a culture of business excellence and product innovation, Inscape Data is committed to delivering cost-effective, cutting-edge products. Reliable, proven U.S. design and offshore manufacturing facilities in Taiwan ensure that Inscape Data will continue to deliver solutions that are highly cost competitive.

Continuing in this pioneering spirit of excellence and innovation, Inscape Data is continuously developing and introducing outdoor network appliances, i.e., outdoor PoE, wired/wireless, and IP video technology solutions. Inscape Data will continue to bring its unique competitive edge to the marketplace in the future.

## Mission

To offer a cost effective line of outdoor network appliance products based on the patent-protected technology for outdoor network markets, i.e., security, Internet, industrial networking, and telecommunication carrier markets.

## Our Unique Value Proposition

To empower the outdoor network business community with:

- Proven experience and technology in outdoor PoE, wired/wireless, IP video systems
- Total Turnkey Solutions for Outdoor PoE, Wired/Wireless, and IP Video Applications
- Dependable, high-quality, cost-competitive manufacturing
